

DON'T LEAVE AHEAD BY 12X ☺

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211NCP1

☒ All GE foods should be labeled so I am informed and have a choice.

☒ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

(Additional Personal Comments:)

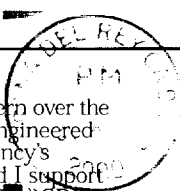

Regardless of the immediate to short term benefits of GE Food. It still remains possible that eventual unpleasantness may surface.

Name *Hence, do your fair share of research! Don't*

5630 Fishers Lane, Room 1061
Rockville MD 20852

you have nonsufficient evidence to prove without doubt, either or not GE is safe or harmful.

→ make the human race & the environment your primary priority.
